Collab EMeet M2

THE PROFESSIONAL SPEAKERPHONE

Omnidirectional Microphone, Far Field Voice Pickup, Noise Reduction.

Equipped with wireless Bluetooth adapter, optimized by Collab AI for voice audio algorithm, whether you have a voice call or enjoying music, eMeet M2 can provide you with immersive calls and music sound effects.

The wireless speaker is the handiest conference speaker. It turns any voice call into a proper conference call so that everyone in the room can hear what is happening on the call. No more huddling round the laptop or a mobile device listening to its tinny output.

360° Omnidirectional Far Field Pickup
4 smart microphone arrays, 360 ° coverage, can pick up sounds from all angles within range.

Built-in Voice IA Algorithm
Unique Collab IA Voice audio algorithm, which can effectively suppress noise, eliminate echo, and enhance human voice for HD voices.

Small And Exquisite Appearance
Lightweight round shape design, with travel protection bag, easily enjoy the beauty of technology.

Compatible With Multiple Operation Systems
Compatible with mainstream communication systems, seamlessly integrate to achieve call control.

Plug And Play
Intuitive plug-and-play connection capability, which can be used with computer softphones and unified communication systems in just a few seconds of operation.

Strong And Stable Performance
Equipped with a BT adapter to provide a farther and more stable connection, in addition to support USB, AUX, BT multiple connection.

Collab EMeet M2
