

Collab One Touch Display

MEETING ROOM TOUCH CONTROLLER

AV-over-IP Touch Monitor With HDMI Capture Built-in

Video conferencing room solutions with Collab One Touch deliver one-touch join, calendar integration, instant content sharing, and always-on readiness. Pre-configured with room-optimized software from Google, Microsoft, or Zoom. Collab Room Solutions include all necessary components: Collab One Touch controller, Collab conference camera, Collab Speakerphones, commercial-grade cabling, and a Collab Core together with Collab Smart Interactive Display.

▪ Thoughtful Design

With a sleek design, silent operation, and motion sensor for always-on readiness, Collab One Touch brings ease and convenience to online meetings.

▪ Convenient Operation

Flexible cabling lets you locate Collab One Touch near participants for convenient operation while installing the host computer in a cabinet, beneath a table, or behind a display.

▪ Low Profile Table Top Or Wall-mount

An integrated strain relief and cable management system keeps connections tight. Route cables out the back for freestanding deployments, or through the bottom cover for a clean tabletop.

▪ Ease of Use

Bring instant content sharing to meeting room solutions with a single tap.

▪ Compatible with leading Video Conferencing Applications

Certified for or compatible with leading video conferencing room solutions, Tap lets IT standardize on touch controllers while retaining a choice of preferred platforms.

▪ An Ideal Conference Room Interface

Collab One Touch works seamlessly with all other Collab's beautifully simple, next generation of small, medium, and large room solutions components
